Summary

- 2 years of experience building responsive applications with **HTML, CSS, Sass, JavaScript, and ReactJS**, emphasizing strong knowledge of web development, DOM manipulation, and responsive design.
- Extensive experience in ReactJS development, utilizing ES6/ES7 standards along with **NodeJS**.
- Experienced in Redux/Redux Toolkit, HTML, CSS, SCSS, Bootstrap & Tailwind CSS, and Jest testing.
- Solid foundation in **OOPs Concept JavaScript, Data Structures and Algorithm.**

Experience

- **Software Engineer**   **June 2022 – Feb, 2024**
  Persistent Systems | Pune, Maharashtra
  Project: Operative Media   **ReactJS, JavaScript, HTML, CSS, SCSS, GIT**
  Role: ReactJS Developer
  - ➢ Developed Reusable Front-End Components with State management and Integrated Frontend with the Backend Api's.
  - ➢ Implemented **functional components** using **Hooks** such as useState and useEffect to manage component state and lifecycle effectively.
  - ➢ Used testing framework such as Jest to increase code coverage.
  - ➢ Also collaborated with the development team to create user-friendly interface for file-upload and implemented some more features using **ReactJS** component with the help of Figma.
  - ➢ Styled and added sorting to Dashboard table. Enabled automatic redirection to login or dashboard on page reload based on user login status.
  - ➢ Skilled in **Agile Scrum methodologies, JIRA workflows**, and client requirement analysis.

Internship

- **Software Development Intern**   **Jan 2022 - June 2022**
  Persistent Systems | Pune, Maharashtra| Link 🔗   **ReactJS, JavaScript, HTML, CSS, GIT**
  - ➢ Worked with the Team on the design and development of the features.
  - ➢ Utilized props and other methods to create dynamic and efficient applications.
  - ➢ Leveraged Skills in **JavaScript, ReactJS, React-Redux, GIT, Bitbucket**.

Personal Projects

- **Personal Portfolio** | Link 🔗   **ReactJS, JavaScript, HTML, Tailwind CSS**
  - ➢ Built using ReactJS project with functional components, state hooks, and Usecontext, for efficient state management.
  - ➢ Designed a modern and responsive user interface using HTML and CSS, emphasizing clean and engaging user experiences.
- **Notes – Making Web App**| Link 🔗   **ReactJS, JavaScript, HTML, Bootstrap**
  - ➢ Created a Note-Making web App which works similar to Google Notes using ReactJS and used Local Storage to store the data.

Skills

- **Programming Languages :   JavaScript, C, C ++, Ruby**
- **Web**   **:   ReactJS, React- Redux, NodeJS, HTML, CSS, Sass Bootstrap, Tailwind CSS**
- **Database**   **:   MY SQL, MongoDB**

Education

- Acropolis Institute of Technology and Research| B.Tech, I.T| 7.9 CGPA   June 2022
- Higher Secondary | C.B.S.E. | 82 %   June 2017
- Secondary | C.B.S.E. | 8.4 CGPA   June 2015

Certification

- Microsoft Azure AZ-900 - Microsoft
